CAMPAIGN 198UES.

But a short time will elapse ere the voters of this State will be called upon to cast their auffrages for whom they think best qualified to administer the State government for the next four years. There has been but little discussion by the press of the State of those questions that are of vital importance to the tax payers. Good government consists of maintaining law and order with as low a rate of taxation as is possible; and it should uphold the essential part of equal rights, which is a just and equal ratio of taxation. No class legislation should be tolerated. Every piece of property should be taxed at precisely the same rate as others, no matter whether owned by corpo rations or individuals. No just or logical reason can be given for tax ing the property of a citizen, and bone fide resident of the State, four times as much as that of an alieu farm, house or store is taxed for its ly interested in favor of it. actual value. Legislation should right this wrong. If the Legislature does its duty the rest lies with the people, they must elect none but honest, capable men to office, men whom the monopoly cannot bribe or buy. Although the campaign, so far, has been devoid of interest, it is, nevertheless, of vast importance to the people. They are confronted by the tyrannous exactions of a giant monopoly, which, by bribery and corruption, is endeavoring to control the government. Its oppressions are paralizing industry; driving out free labor, substituting the Coolie in its stead, and making thousands anffer. All over the coast its armies of Mongolian heathens are lengthening out the iron fingers of the giant hand that is equeezing out the life blood of the farmer and laborer, while its emissaries are bribing public officials, and buying seats for their attorneys in the U.S. Senate. It tramples upon the law of the land, and defies the tax-gatherer, only paying what it sees fit, and that little as if it was only to prevent annovance and not as a matter of right. Its hired tools are now making a still hunt in this State, with the intention of capturing the Legislature. Every species of bribery and corruption will be re sorted to to gain this end; its filthy gold will be scattered broadcast over their votes. He sure that they are satisfy them or me honest and capable, so they are hon est and capable, so they can neither be bribed nor boodwinked by spe cions arguments. The Executive and legislative offices are the ones that are especially important in this connection. Vote for no man who does not openly and squarely stand with the people as against the monopoly.

THE DEVICE OF THE RAGLE,

The origin of the device of the eagle on national and royal banners may be traced to very early times. It was the ensign of the ancient kings of Persia and Babylen. The Romans adopted various other figures on their camp standards; but Marius, B C. 102, made the eagle alone the ensign of the legious, and confined the other figures to the cohorts. From the Ro mans, the French, under the Empire, adopted the eagle The Emperora of the Western Roman Empire used a black eagle; those of the East, a gelden one. The sign of the Golden Eagle, met in taverns, is in allusion to the Emperors of the East. Since the time of the Romans, almost every State that has as unsed the designa tion of Empire has taken the engle for its ensign; Austria, Russia, Prassis, Poland and France, all took the eagle. The two headed eagle signifies a double Empire. The Em-perons of Austria, who claimed to be considered the successors of the Car sars of Rome, used the double headed eagle, which is the eagle of the Eastern Emperors and that of the Western, typifying the "Holy Roman Empire," of which the original Emperors of Germany (now merged in the House of Austria) considered themselves as the representatives. Charlemagns was the first to use it, for when he became master of the whole of the German Empire be added the second head to the eagle, A. D. 802, to denote that the Empires of

DESIROUS OF BRING ANNEXED TO NEVADA.

Of a feeling on the part of certain Oregonians, the Winnemucca Silver State tells and comments as follows:

The citizens of Southeastern Ore-

gon appreciate the interest manifested by the people of Winnemucca for their safety during the late Indian troubles, and are unanimonaly in favor of being annexed to Nevada. At the first call for assistance a party of volunteers, all that could be mounted and armed at short notice, left for the north and marched to White Horse, where the settlers from all parts of the surrounding country appeals for assistance were sent to General Howard, who was then at Sheep Ranch, and to the authorities of Oregon, neither responded, and he only aid afforded them was from Humboldt Volunteers. For these and other reasons they are now agitating the question of annexation. The southern parts of Baker and Grant counties are cut off from direct communication with the State Capi-Their interests are identical those of Northern Nevada. Their cattle are shipped to market from Winnemucca, and their farming implements and supplies are all purchased at or shipped from this place. Their business relations are all with Nevada, and the government of Oregon takes no interest in their part of the State, except to collect taxes. It is probable that a bill will be introduced in the Oregon Legislature at its next session by the Senator elect from Grant county to annex the southern part of that county to Ne vada; but it is not likely that the webfoot law makers from the western part of the State will agree to so just corporation, whose members dwell a measure, notwithstanding the unanin another State An individual's imons sentiment of the people direct-

GENERAL SORROW.—The death of Wm. Watt plunged Nevada county, Cal., in general sorrow. Flags were at half mast, trains were run from Sacramento to Grass Valley, to allow the many friends to attend the fu neral, business houses were closed and draped in mourning last Tuesday when the funeral took place, the local press draped their columns, and a general sadness seemed to prewale the whole people. A great and a good man had gone to rest.

AT IT AGAIN.

Some of the points at issue between the Grand Jory, Taxpaver's Commit tee and individuals and District At torney Cam and some of the county officers are again becoming subjects for newspaper talk and extras. From the figures presented we have made up our mind that in the Humbolds-Washoe matter this county is out and injured to the tune of \$100 80 on the Soderburg bill, as the bill was out down that much and the rime al lowed by law in which to institute suit has elapsed, through the negligence, probably of District Attor ney Cain. We can't figure that this county is out the \$378 for the testi mony for the Governor's office True, the bill was allowed by this county, but Mr. Comstock, Auditor Williams and the Commissioners all agree that in no case was the Clerk to get it; it seems to have been a Servis's independence has been piece of strategy on the part of our county sustained in the first trial, by the deduction made to our bill by the Humbellt Commissioners. deductions to our last claims prop-

THE STAMESE TWINS BEATEN .-- A new pair of twins who may rival the fame of the Siamese couple, have arrived at the New York aquarium. Rose and Marie are the names of the "St. Benoît twins," who may be described either as two girls with one abdomen and one pair of legs, or as one girl with two heads, two chests and two pair of arms. Rose is blonde: Marie is a brunette: each is French and seven months old, from St Benoit, a village near Montreal, Canada. Their parents are demure peasants, who appear to love their twin offspring. Their mother nurses them as any mother would nurse a the right leg, while Rose has none over the left. They have one stom ach between them. Rose sometimes versa.

JOHN A. MACGAHAN, lately dead, was the very will o' the wisp of war correspondents. THE PIUTE CHIEFS.

Interview with this! Naches- His Idea of the Inclas War-Howard Rertewed as an Indian Fighter.

Naches, accompanied by four of the Pinte warriors, passed west yester day morning on their way to San Francisco. The Piutes have been in connect for several days past out in Humboldt, speaking their minds with regard to the action to be taken in the Bannock war. The chiefs were summoned to San Francisco by Major General McDowell, to hold a conference and have them speak their minds relative to the present attnation of affaire. The Indiana were in fine spirits, and manifested the most friendly feelings toward the whites Naches was dressed in good style, and wore the badge R Page, do H F which was given him by the Hum- G A Allen, white Horse J B Elliott, Huntsville, Tenn bildters in a prominent place on his breast, and seems to be very proud of it. He became somewhat excited while talking of the various exploits which he has had with the hostile Indians during the last month, and says he will return to the front as soon as he completes his interview with McDoweil. The instructions that he has from the tribe are to the effect that the whites need fear no harm from them, and that a portion of them are willing to assist in the suppression of the present war, provided they are furnished with arms and ammunition to fight with Naches was of the opinion that the Bannocks intended to retreat until they had crossed the Columbia river, and there make a stand. As that Company has suspended all opera sonntry is the most favorable for Indian warfare it may be expected that a bloody battle will be fought there soon, as the warriors number a great many, and they will be able to make a desperate fight. When asked what he thought of General Howard as an Indian fighter Naches replied, "Maybe so Gen. Howard pretty good man, 600. The employes of the various too d-n slow to fight Indians, all mills are arriving on foot and by time fifteen miles behind." He has stage. not planted a crop on his farm this are being made, although the sus year, owing to the Indian disturbances He has left it in charge of several Indians while he is away at that they will secure their wages, as tending to the war. Wagner is at Camp McDermit waiting for orders. Old Winnemuces is at that fort, with a large number of braves. The old chief goes on scouting expeditions frequently, and never fails to return to the camp. The Princess Sarah is with Howard. Naches does not believe the reports that there has been any fighting in Surprise Valley. His cabinet, or counsel, all sub chiefs of the tribe, who went with him, were Captain Breckenridge, his consin Jerry, Buena Vista John, and Bob. He will return from San Francisco the first of next week, and has prom-

ised to stop over one day to visit some of his pale-face friends. Stabbing.

He was allowed to he there all night, until yesterday morning Chas Courtois a salary of \$10 per Neale's dead house, from whence he when he was brought to Sanders & was conveyed to a campoody just out of town. When we saw him he was in great agony and appeared to be ainking, but at last accounts was still ing item: slive. The stabber, who is a Carson Indian, escaped and has not been heard of. The Indians are very reticent when questioned on the subject.

MATCH BACES. -The Carson Appeal of Tuesday has the following sport-

We are happy to be enabled to state that two matches have been made to come off on Friday, the 18th of the present mon'h, over the Carson track. Each race is for \$500 a side, and the forfeit of \$250 on each race is now in the hands of the stakeholders. One match is between Molite H and Bill Hizel, three miles and repeat, and the other is a calle and repeat between Madge Duke and Illusion. The horses are now being trained for the encounter, and all may rest assured that every thing will be done to have matters arranged in such a way as to give general satisfaction.

A LITTLE HASTY. -The Careon Tribuse of Tuesday has the following:

We think that the Trustees of our Agricultural Society were a little hasty in ruling Alten Brage from the track, as we understand that he had nothing whatever to do with the "trotting job" that was put up on Sunday. True, his horse took part in the race, but he had sold the use of his horse to from Norcross, not knowing what base purpose he was to be put. We believe Ailen to be too honorable to be concerned in such a contemptible trick, and we trust he will hasten to place himself in a proper li ht before the Society.
